Professional Profile

Nigel has successfully designed and delivered Transformation programmes both within organisations and across health systems applying his extensive knowledge of Lean, Demand and Capacity and wider Quality Improvement Tools.

He is an experienced PRINCE qualified Programme Director and designer of large scale, multi-organisation change programmes.

Nigel has a wealth of experience including strategic planning and delivery, organisational development, workforce planning, programme management, preparation of business cases and service reviews.

Relevant Consultancy Experience

- ① Working as Interim Transformation Programme Director for Worcester Acute Hospitals NHS Trust reviewed the Trust's Patient Care Improvement Plan working with the SROs and multi-disciplinary programme leads across the organisation. Worked with regulators to clarify and rebase key programmes of work designed to take the Trust out of 'Special Measures'
- ① Led on the design and delivery of the Trust's Transformation Programme for Yorkshire Ambulance Service including the development and delivery of plans to secure significant improvements in performance against national performance targets
- ① Developed and delivered a successful bid to host the Abdominal Aortic Aneurysm Screening Programme for the South Yorkshire and Bassetlaw area
- ① Led on several high-level strategic business cases from strategic outline case, through the development of outline business case to a full business case. Notably for the Hull and East Yorkshire NHS Trust developed and then wrote a successful business case for the procurement of the Castle Hill private hospital from Nuffield.
- ① Delivered capacity and demand reviews of both Adult Mental Health Services and CAMHS services and developed a workshop-based approach to teaching the application of capacity and demand principles leading to improvements in service quality and efficiency for Hertfordshire Mental Health Trust
- ① Co-designed and led a lean based process improvement programme that released around £3m in savings whilst improving service and clinical quality for Berkshire Community and Mental Health Trust. Co-designed and led on the redesign of Children's Therapy Services in Berkshire Community and Mental Health Trust
- ① Co-designed and led a process improvement programme for CareUK, one of the UK's largest independent healthcare providers, designed to improve quality and safety whilst improving market share
- ① Led on development of the Lean based Productive Series from ideation to delivery including Productive Community Services and The Productive Operating Theatre for the NHS Institute.

Feb – Mar 2020 – curtailed due to COVID 19
Patient Experience and Improvement Programme Support
HCA UK Healthcare Group

- Engaged by HCA (at the Wellington Hospital initially and then across the group) to develop a programme of support designed to help frontline staff improve patient experience, discharge planning and reduce medication errors. In doing this we are teaching QI skills that staff will be able to deploy on a range of further improvement projects across the hospital. To date, we have worked with more than 50 staff on more than a dozen projects.

October 2019 – January 2020
Project Lead
North of England Commissioning Support Unit

- ① Led a team commissioned by NHSE/I to undertake a rapid digital diagnostic designed to provide a robust evidence base for establishing an enabling digital maturity programme across the Midlands and Eastern regions.
- ① Undertook a diagnostic showing a clear understanding of the current digital maturity position and a high-level gap analysis to inform future priorities
- ① Contributed to a digital dashboard to allow the ongoing monitoring and insight into progress in digital policy areas – the principles and initial design were subsequently adopted by NHSX national team
- ① Developed a framework for Regional Operating Models to support the progression of digital maturity tailored to the needs of each the regions including the structure, roles and responsibilities of the Regional Digital Transformation Teams to enable digital maturity
- ① Robust governance and reporting across the regions that is a light touch and supportive putting equal emphasis and value on quantitative and qualitative aspects
- ① Proposed a Leadership model to enhance current digital transformation capacity and capabilities including a framework for a strong digital inclusion and engagement model for organisations, their staff, patients and the wider public and a model and process for targeting digital transformation investment to support sustainable digital maturity

March 2018 – March 2019
Programme Lead
North-East Commissioning Support Unit
