Professional Profile

Ben is a Data Analyst & Project Management support who supports our team with a wide range of consultancy assignments and internal reviews and reporting. Ben was instrumental in supporting our team gain the ISO9001-15 quality mark by preparing processes, procedures and internal reporting. Ben was also part of our bid team with the successful application of our government frameworks. Ben also helps to co-ordinate our commissioning role for Gibraltar Health Authority and Government of Jersey Health & Community Services for tertiary referrals made by the islands to the UK. Ben was also instrumental in developing demand and capacity models for COVID Virtual Wards throughout Lancashire and South Cumbria. Ben is an enthusiastic and highly motivated analyst who is highly analytical and is continually looking at ways to improve performance, outcomes and expenditure. Ben also supports our contracts team with contract negotiations, performance management of contracts and trends and supports individual patient queries. Additionally, Ben works on other assignments by analysing data outcomes and undertaking detailed research and demand modelling and costing.

Career Summary & Assignments Undertaken

NHS Wales – 2021/22

- ① Undertaking detailed financial analysis of national (NHS Wales) procurement for all bidders for a national informatics service throughout Wales.
- ① Undertook some detailed modelling and internal training for the RISP project for end users across Wales.

- ① Assisted with activity modelling and profiling for a review of Community Equipment Services across Merseyside and undertaking some benchmarking with other providers and acted as lead analyst.

Lancashire & South Cumbria ICS – 2020/21/22

- ① Designed a Virtual COVID-19 Ward SITREP Report for the ICS in Excel which provides performance management information from each of the five ICP's which includes:
 - Daily activity information, including referrals, triage, onboarding, discharge and LOS
 - Hospital Admission Rates
 - Conversion Rates
 - Infection rates within the community, broken down by geographical area
 - Financial Costings
 - Analytical Information by demographics and age
 - Mapped through various graphs
 - Automated summary reports for reporting.
- ① Supported with the design of a modelling tool for projecting demand and capacity and scenario modelling based on infection rates, conversion rates, hospitalisation rates and age profiling.
- ① Revisited the exercise for the new Omicron variant to establish the impact on service provision.

GP's in Primary Care (2019/22)

- ① Supporting a number of GP practices with the planning and implementation of the NHS Information Governance Toolkit.

St Helens CCG – 2019/20

- ① Successfully supported the Community Service Transition Project Team which went across 10 service lines, 4 NHS Trusts, 3 CCG's, 1 LA and voluntary organisation by:
 - Producing monthly performance dashboards, reports and monitoring sheets
 - Supporting the evaluation of location options.
 - Costing Community services and budget setting.
 - Supporting the update of project plans.

Gibraltar Health Authority (GHA) – 2016- to date

- ① Preparing and producing monthly monitoring reports.
- ① Producing a monthly written report illustrating a more detailed and comprehensive narrative.
- ① Co-ordinating and validating patient information and activity and costs for all UK activity from Gibraltar.
- ① Undertaking quarterly reconciliation statements for each provider.
- ① Liaising with the GHA and the contracted providers to ensure smooth communication.
- ① Organising and reconciling monthly invoices and payments.

Government of Jersey Health & Community Services (JHCS)

Commissioning Project (2016 to date)

- ① Preparing and producing monthly monitoring reports.
- ① Producing a monthly written report illustrating a more detailed and comprehensive narrative.
- ① Co-ordinating and validating patient information and activity and costs for all UK activity from Jersey.
- ① Undertaking quarterly reconciliation statements for each provider.
- ① Liaising with the JHCS and the contracted providers to ensure smooth communication.
- ① Organising and reconciling monthly invoices and payments.
- ① Producing annual Heads of Agreement and contract documentation.

Radiotherapy Feasibility Project (2021/22)

- ① Acted as lead analyst on analysing data on activity and fiancé and supported the development of a financial costing model. This project looked at lots of options for bringing a Radiotherapy Service on to the island and Ben identified and analysed both costs and activity.
- ① Supported with the report writing, PowerPoint presentations and interviews.

Heart of England Foundation NHS Trust – Good Hope Hospital (2014)

- ① Helped develop the Innovation and Cost Improvement Plan for 2014.
- ① Supported the organisation and hosting of 2014 ‘Lets Innovate’ road shows held throughout the Trust.
- ① Supported the Good Hope Hospital fund raising programme.
