Environmental Policy Statement

Fully established in 2014 In-Form Solutions is a provider of effective management solutions to both community and business organisations. We are proud to provide a personal service to an impressive portfolio of clients at home and abroad including the NHS, local and central government, overseas governments, not for profit organisations and commercial clients.

The management of In-Form Solutions is committed to protecting the environment and minimising any environmental impacts of its activities, including its services. Our objective is to endeavour to continually improve the Company's Environmental Performance by achieving certification to ISO14001.

The Company has initiated an environmental management programme that will:

- Set appropriate environmental standards with objectives and targets based upon our policy and seek to continually improve our Environmental Management System
- Maintain environmental monitoring through independent audits.
- Call on third parties such as suppliers, vendors and contractors to adopt similar standards
- Comply with existing and wherever practicable, impending environmental legislation and regulations.
- Work to combat climate change

Communicate our environmental policy to associates, the public and to any interested parties.

A copy of our Environmental Policy Statement will be made freely available. Information on the Company's significant environmental aspects is available from the Managing Director

SIGNED

A handwritten signature in black ink, appearing to read 'John Griffiths'.
